Information Technology Intern

BS Information Technology student (3rd year) with hands-on coursework in web development (Laravel, PHP) and networking (Cisco Packet Tracer, subnetting, IP addressing, routing). Career-changer bringing strong discipline and real-world initiative from running a small business. Seeking an internship or entry-level opportunity to apply and grow technical skills.

WORK EXPERIENCE

Food Order & Catering Business Owner/Operator

- Runs a home-based food business offering catering for events, frequent food packs, and special-occasion orders (Town Fiesta, New Year, Christmas).
- Manages menu planning, pricing, and customer orders independently.
- Cultivated strong relationships with clients through personalized service and timely delivery, ensuring a consistent 5-star rating on customer feedback.

EDUCATION

BS Information Technology

Eastern Samar State University

Borongan City, Philippines • 08/2024 - Present

3rd Year

BS Nursing

University of Santo Tomas, RTRMF

Previously pursued before transitioning to IT.

CERTIFICATIONS

Networking Basics

Cisco

Network Addressing and Basic Troubleshooting

Cisco

PROJECTS

Networking Practicals

Hands-on labs covering network design, IP addressing/subnetting, and configuration exercises across coursework, including VLANs, trunking, and routing setups.

Laravel Profile App

Small web app built while learning Laravel — covers routing, Blade templating, and pulling dynamic data from a database.

Task Manager Web App

Built and deployed a task management web application using CodeIgniter and MySQL, hosted live via a free hosting platform — covered CRUD functionality (create, read, update, delete tasks).

Pet Vaccination Record System (PVRS)

Designed a system concept for tracking pet vaccination records digitally, covering record entry, lookup, and status tracking to replace manual/paper-based logs.

Java OOP Console Project (Eclipse IDE)

Developed a Java-based program applying object-oriented programming principles (classes, objects, inheritance) using the Eclipse IDE.

SKILLS

Languages: C++/C# (basics), HTML/CSS, Java (OOP), PHP

Tools & Frameworks: Cisco Packet Tracer, CodeIgniter, Git/GitHub, Laravel, XAMPP/MySQL

Networking: Default Gateway configuration, IP Addressing, Static Routing, Subnetting, Trunking, VLANs

Other: DRRM, GIS applications
